# Our Achievement

Mariners Group

We have successfully obtained our Certificate of Incorporation for two companies and have achieved ISO Certification. We operate four distinct production lines, including our IPD line and candy line, with a production capacity of 100 million units per month. Our workforce

exceeds 400 employees, including expert quality officers, supported by a strong network in the FMCG sector. We work with over 250 distributors, ensuring comprehensive coverage across Bangladesh. Our facilities are equipped with a complete machine setup, an air-conditioned room with a dehumidifier and a fully

HACCP-compliant factory. We offer around 50 SKUs and have established a network for exporting high-quality products. Our strong community bond includes over 110 mariners and we provide more than 50 sectors for mariner investments. We value partnerships with individuals who share our commitment to interest-free business practices.

**FOR FACTORY VISITS, WE HAVE OUR OWN ARRANGEMENTS FROM THE DHAKA HEAD OFFICE.**

## MESSAGE

**We possess wealth, yet business opportunities elude us.** We have talent but lack entrepreneurial experience. Our positive attitude towards people is strong, yet we have no trusted allies. Our community is large and self-sufficient, but it lacks unity. We have promising careers at sea, but no alternative path for a secure and prestigious future on land. We've achieved self-made status, but we still struggle to find a true identity. We are surrounded by relatives, yet each one speaks only for their own benefit.

**In times of financial trouble, everyone turns to us.** They secure their futures, while we remain insecure until the end of our days. Who is responsible for these issues? Who will help us overcome them? Who will guide us and steer us forward? It is we who must take action and address these challenges ourselves.

**We have money, but it is often misused.** We have talent, but it remains untapped. We have health, but it is at risk. We have a community, but it is divided. We make sacrifices, but they are forgotten. We offer love, but it is neglected. We have feelings, but they go unattended.

**Who is responsible for these issues? Who will help us overcome them? Who will guide us and lead the way forward? The answer is clear: it is up to us to take action and address these challenges ourselves.**

**What we need is a common platform, one that provides a clear mission and vision.** A platform where our talents are utilized, where we can create our own identity, and where we can find a secure future for ourselves and our next generation. A platform where we can stand together, fight together, and survive together. A platform where we can make our own decisions and create opportunities for others.

**Alhamdulillah! Alhamdulillah! Alhamdulillah!** This is the place for you, a platform that speaks only about mariners. This is a community-based business platform, a 100% interest-free business platform with limitless opportunities. Yes, we are talking about 'Mariners Group - A business revolution for the mariners' community.'

**Mariners Group has successfully established its first company, offering products recognized by 90% of our country's population,** thus providing strong brand value for future ventures. Our second company is already in the making, and we are steadily progressing toward our goals. We have simplified the installment system to build a solid foundation, ensuring that our operations are not dependent on any single individual. For mariners, building a Marine Trust is no longer a myth. Establishing our own chain of super shops is not just a dream. Our current business in the FMCG (Fast Moving Consumer Goods) sector, the foundation of all business, will naturally give rise to new business branches.

**As your representative, I do not see myself as an individual, but as a reflection of all of you who share this vision. Together, we can create a future where mariners are not just secure but thrive. So, before it's too late, my dear beloved and respected mariners, please:**

- COME FORWARD
- THINK OUTSIDE THE BOX
- MAKE YOUR OWN IDENTITY
- BE UNITED IN A SYSTEM-OPERATED PLATFORM
- SECURE YOUR FUTURE
- FORGET ABOUT CRITICS
- MAKE YOUR OWN DECISIONS
